Your choice Saturday, for Only
97c

We were fortunate in securing 300 Umbrellas last fall at the low prices then prevailing. We were tempted to purchase these because of the extra good quality of the coverings, the beauty and big variety of the handles, and by the general excellence of the make-up. This lot we now put before you are worth at least \$1.25 to \$1.50. You can purchase one Saturday only at.....97c Both Ladies' and Gents'.

Complaints against the practice of playing baseball in some of the city parks are being registered daily with the park commissioners, with the result that parents and police have been asked to co-operate with the commission in correcting the abuse of the parks. The practice is not confined by any means to small boys, as in two notable instances older boys have openly compromised the wishes of people living around the parks by continuing their play. Yesterday a resident of Currier park noted two baseball games in progress on the grassy plane that once was Chubb's meadow. Elmwood park on the east side of the city affords a recreation ground for golfers as well as baseball players and the effect on the grass is not calculated to make the task of the commissioners any easier. It is said that boys from all parts of the city assemble at Currier and Elmwood parks for their games.
